Muthur, Kangayam · Tamil Nadu · India

OUR MILL · MUTHUR, KANGAYAM TALUK · SINCE 2012

A coconut oil mill in the Kangayam copra belt

Sri Sellandiamman Oil Mill was started in 2012 at Amaravathipalayam, Muthur, in Kangayam taluk of Tiruppur District, at the heart of one of Tamil Nadu's copra belts.

Today the mill presses **about 500 MT of copra a month** into Cold Pressed coconut oil. Oil is extracted below 49°C, filtered in multiple stages to 1 micron and lab tested in accredited labs, so the oil that leaves the mill is crystal clear and water white, batch after batch.

From the same copra, press and filtration line we supply bulk buyers, exporters, brands and repackers; our own SRM Gold, AMK GOLD and Naanal Gold coconut oils; and White Coconut Oil Cake under our Shakti Gold brand.

We dispatch by road to 15 states and territories across India. Export orders go by road from Muthur to the port of loading.

> **One Mill. One Standard. Every Batch.**

COPRA TO OIL

From Kangayam copra to water-white oil, under one roof

One mill, one standard. Every batch follows the same line, from the drying yard at Muthur to the tanker, barrel or bottle.

01 Kangayam copra

Coconuts from the Kangayam belt are sun-dried into copra in front of the mill, then graded.

02 Cold Pressed

Copra is Cold Pressed at the mill, with oil extracted below 49°C.

03 Filtered

Oil is filtered in multiple stages to 1 micron before it is called water white.

04 Lab tested

Oil is lab tested in accredited labs. A batch CoA is shared on request.

05 Stored at the mill

Filtered oil is held in storage at the mill until it is packed.

06 Packed and dispatched

Packed in your format and dispatched from Muthur by road, or to the port of loading for export.

WATER WHITE, BATCH AFTER BATCH

Our Water White Matches VCO in quality and parameters.

COCONUT OIL GRADES EXPLAINED

Grade	Raw material	Process	At our mill
Crude	Copra	Pressed, not finely filtered	Intermediate stage only
Filtered	Copra	Pressed and filtered	Part of our line
Water white	Copra	Cold Pressed (extracted below 49°C), filtered in multiple stages to 1 micron	Our speciality
Virgin (VCO)	Fresh kernel	Made from fresh kernel, not copra	Our Water White Matches VCO in quality and parameters
Refined (RBD)	Copra	Refined, bleached, deodorised	Not made here

Colour depends on the copra and the filtration, so always check the lab report.

WHAT WE MAKE

Choose your grade. We match it every batch
